

# Vendor **Credentia**ling Service

## **Safety • Quality • Compliance**

**Vendor Credentialing Service (VCS)** offers you a true no-cost program that simplifies healthcare vendor compliance for both the vendor and the healthcare facility. By storing, tracking and maintaining the credentials of all vendors who sell products or services to healthcare facilities, **VCS** drives vendor compliance. **VCS** then makes it easy for the healthcare facility to track the various vendors coming through their doors, including complete vendor information such as visit details. **VCS** benefits the healthcare company by saving them costly and often inefficiently spent administrative resources.

**Complete vendor access management system**

---

**Helps increase efficiency, productivity, safety and compliance**

---

**Online vendor education courses**

**simple & affordable compliance solutions for healthcare facilities and their vendors**
